## EDUCATION

---

- **Rajiv Gandhi Proudlyogiki Vishwavidyalaya** Indore, India  
*Bachelor of Engineering in Computer Science, CGPA: 7.82/10* Aug 2014 - June 2018
  - **Relevant Coursework:** Data Structure & Algorithms ,Object Oriented Analysis, DBMS, Computer Network
- **Chhatrapati Shivaji Public School** Indore, India  
*Higher Secondary School Certificate (10+2), Per: 83.2/100* Apr 2013 - Mar 2014
- **Chhatrapati Shivaji Public School** Indore, India  
*High School Certificate (10th), Per: 84.5/100* Apr 2011 - Mar 2012

## FIELDS OF INTEREST

---

Data Structures & Algorithms.

## EXPERIENCE

---

- **Impetus** Indore, India  
*Software Engineer* April. 2018 - Present
  - **Merchant Rule Creator:** MRC is a powerful, lightweight single page application. MRC is used to create Rules that are composed of simple json structures, making them human readable and easy to persist.  
**Roles and Responsibility**
    - \* Developing end-to-end UI using Bootstrap & HTML and processing data using React.
    - \* Responsible for writing services in NodeJS for different orders, products and customers based on the requirements.
    - \* Integrated JSON rule engine package for validating Rules.**Tools and Technologies :** Node JS, React, Redux, GraphQL, MySQL, HTML, CSS, Bootstrap.
  - **Corner Stone - Platform Calendar:** Platform Calendar is a platform to track outages of different types, integrated with auto communication feature for the stakeholders. Calendar dashboard shows all the events and summary for the day/week/month/year with their criticality.  
**Roles and Responsibility**
    - \* Developed Outage approval workflow.
    - \* Developed API's in Spring Boot for Approval/Rejection notification to stakeholders based on their role.
    - \* Designed & developed calendar dashboard which shows all the events and summary.**Tools and Technologies:** Java, Spring Boot, Angular 6, MySQL, HTML, CSS, Bootstrap.

## ACADEMIC PROJECTS

---

- **Cumulative Academic Result Analyzer:** CARA is a Web Portal developed for RGPV Engineering Colleges which automated the result management system. It helped the organizations to create the data accurately and efficiently. It also ease the process of analyzing results.
- **Rest API Simulator:** Web Portal to mock your API response. Simulator enables you to stay productive when an API you depend on doesn't exist or isn't completed.

## PROGRAMMING SKILLS

---

- **Languages:** Java, Node JS, React, Angular, JavaScript, HTML.
- **Technologies:** Spring, Redux, MySQL, MongoDB, GIT, Bootstrap, CSS.

## HONORS & AWARDS

---

- Awarded twice as Star of the Month Employee at Impetus.
- Secured 7th rank in state in Whee-box employability skill certificate test.
- Secured 1st position in school in SOF-16th National Science Olympiad.
- Won Inter School Chess Competition for three consecutive years.
